

South Plains College
Common Course Syllabus: CHEM 1411
Revised 01/08/2025

Department: Science

Discipline: Chemistry

Course Number: CHEM 1411

Course section: 451

Course Title: General Chemistry I

Available Formats: Dual-Credit, Lecture online and Lab at local high school.

Campuses: Online/Local high school

Instructor: Dr. Bangshing Wang. Office S117B. **Email:** bwang@southplainscollege.edu

Office Hours: Monday: 8:30 am ~ 9:30 am
Tuesday: 9:00 am ~ 11:00 am
Wednesday: 8:30 am ~ 9:30 am
Thursday: 9:00 am ~ 11:00 am
Friday: 9:00 am ~ 11:00 am

Course Description: CHEM1411: General Chemistry I. (4:3:3) Pre-requisite: MATH 1314 (College Algebra) or equivalent academic preparation; high school chemistry is strongly recommended. Fundamental principles of chemistry for majors in the sciences, health sciences, and engineering; topics include measurements, fundamental properties of matter, states of matter, chemical reactions, chemical stoichiometry, periodicity of elemental properties, atomic structure, chemical bonding, molecular structure, solutions, properties of gases, and an introduction to thermodynamics and descriptive chemistry. Basic laboratory experiments supporting theoretical principles presented in lecture; introduction of the scientific method, experimental design, data collection and analysis, and preparation of laboratory reports

Prerequisite: MATH 1314 (College Algebra) or equivalent academic preparation; high school chemistry is strongly recommended

Credit: 4-hour, **Lecture:** 3-hour, **Lab:** 3-hour

Textbook: N/A

Supplies: Required

- CHEM1411 Lab Manual available on Blackboard.
- Personal computer with internet access.
- Any device to take pictures of labs (High school teacher will collect, scan, and email them for grading)

Supplies: Recommended

- Scientific calculator. Usage of cell phones *WILL NOT BE* allowed on exams!

This course partially satisfies a Core Curriculum Requirement:

- Life and Physical Sciences Foundational Component Area (030)

Core Curriculum Objectives addressed:

- **Communications skills**—to include effective written, oral, and visual communication
- **Critical thinking skills**—to include creative thinking, innovation, inquiry, and analysis, evaluation, and synthesis of information
- **Empirical and quantitative competency skills**—to manipulate and analyze numerical data or observable facts resulting in informed conclusions
- **Teamwork**—to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes:*From Lecture:*

1. Define the fundamental properties of matter.
2. Classify matter, compounds, and chemical reactions.
3. Determine the basic nuclear and electronic structure of atoms.
4. Identify trends in chemical and physical properties of the elements using the Periodic Table.
5. Describe the bonding in and the shape of simple molecules and ions.
6. Solve stoichiometric problems.
7. Write chemical formulas.
8. Write and balance equations.
9. Use the rules of nomenclature to name chemical compounds.
10. Define the types and characteristics of chemical reactions.
11. Use the gas laws and basics of the Kinetic Molecular Theory to solve gas problems.
12. Determine the role of energy in physical changes and chemical reactions.
13. Convert units of measure and demonstrate dimensional analysis skills.

From Lab:

1. Use basic apparatus and apply experimental methodologies used in the chemistry laboratory.
2. Demonstrate safe and proper handling of laboratory equipment and chemicals.

3. Conduct basic laboratory experiments with proper laboratory techniques.
4. Make careful and accurate experimental observations.
5. Relate physical observations and measurements to theoretical principles.
6. Interpret laboratory results and experimental data and reach logical conclusions.
7. Record experimental work completely and accurately in laboratory notebooks and communicate experimental results clearly in written reports.
8. Design fundamental experiments involving principles of chemistry.
9. Identify appropriate sources of information for conducting laboratory experiments involving principles of chemistry.

Student Learning Outcomes Assessment:

A few topics/questions from the exams will be selected to assess the students' learning outcomes at the end of semester.

Course Evaluation/Grading Policy:

CHAPTER EXAMS: There will be *TEN*-chapter exams, and they will be taken on *Blackboard*; Chapter 1 ~ 9 exams will be open from 7:00 AM Monday to 4:00 PM Friday during the week of exam. Chapter 10 exam will be open from 7:00 AM Monday to 4:00 PM Wednesday of the last week. It is a 1-hour timed exam, once a student starts, they must complete the exam. These exams will cover the materials in the lecture notes, and the schedule of the exams are on the course schedule. Exams will be in a multiple-choice format; each exam will be worth 50 points. Only the materials discussed in the lecture notes will be on the exam, and you will have time to finish it. There will be no make-up for missed exams. Please turn in all the scratch papers used during the exam to the teacher when finished.

- Chapter 1 exam: 50 points
- Chapter 2 exam: 50 points
- Chapter 3 exam: 50 points
- Chapter 4 exam: 50 points
- Chapter 5 exam: 50 points
- Chapter 6 exam: 50 points
- Chapter 7 exam: 50 points
- Chapter 8 exam: 50 points
- Chapter 9 exam: 50 points
- Chapter 10 exam: 50 points

The materials scheduled for each lecture exam by subject to change, this change will be announced in advance if necessary.

EXAM REVIEW: There will be *TEN* exam reviews, sole purpose of the exam practice review is to help prepare for the exam and it does not count towards the total grade. I highly recommend students spend quality time with the exam review as it will prepare you for the exam. You can find the exam reviews on Blackboard.

LAB EXPERIMENTS: Lab reports will be collected for grading by the high school teacher after the experiment has been completed. High school teachers will collect, scan, and email the materials for grading. Each lab assignment will be worth 10 points. The laboratory portion of this class will comprise topic discussion, practice worksheets and lab experiments. The lab portion of this course will consist of group work to perform lab experiments. There will be no make-up labs for the missed lab; students will receive ZERO for the lab section if missed.

- Lab experiment 1: 10 points
- Lab experiment 2: 10 points
- Lab experiment 3: 10 points
- Lab experiment 4: 10 points
- Lab experiment 5: 10 points
- Lab experiment 6: 10 points
- Lab experiment 7: 10 points
- Lab experiment 8: 10 points
- Lab experiment 9: 10 points
- Lab experiment 10: 10 points
- Lab experiment 11B: 10 points
- Lab experiment 13: 10 points
- Lab experiment 14: 10 points

QUIZZES: Quizzes will be taken on Blackboard. All the quizzes will be open from 7:00 AM Monday to 4:00 PM Thursday during the week that is assigned. It will be multiple choice questions. Each quiz will be worth 10 points. These quizzes will cover the materials in the lecture notes, and the schedule of the quizzes are on the course schedule.

- Quiz 1: 10 points
- Quiz 2: 10 points
- Quiz 3: 10 points
- Quiz 4: 10 points
- Quiz 5: 10 points
- Quiz 6: 10 points
- Quiz 7: 10 points
- Quiz 8: 10 points

COURSE GRADING:

Grading based on percentage:

A = 90 – 100%
 B = 80 – 89%
 C = 70 – 79%
 D = 60 – 69%
 F = below 60%

The grade distribution:

Total Chapter Exams: 500 points
 Total Labs: 130 points
 Total Chapter Quizzes: 80 points
Total Possible point: 710 points

Attendance Policy:

It is vitally important that you plan your time and study lectures notes and attend all the laboratory experiments to do well in this course. *If student is out due to COVID-19 or exposure to COVID-19, the appropriate equivalent arrangements will be made for that student to complete the assignments missed during quarantine period. All make up assignments due to COVID-19 will be done virtually, and they are due at the end of the week that the assignments were originally assigned.*

Students are expected to attend all classes in order to be successful in a course. The student may be administratively withdrawn from the course when absences become excessive as defined in the course syllabus. When an unavoidable reason for class absence arises, such as illness, an official trip authorized by the college or an official activity, the instructor may permit the student to make up work missed. It is the student's responsibility to complete work missed within a reasonable period of time as determined by the instructor. Students are officially enrolled in all courses for which they pay tuition and fees at the time of registration. Should a student, for any reason, delay in reporting to a class after official enrollment, absences will be attributed to the student from the first-class meeting.

Students who enroll in a course but have "Never Attended" by the official census date, as reported by the faculty member, will be administratively dropped by the Office of Admissions and Records.

It is the student's responsibility to verify administrative drops for excessive absences through MySPC using his or her student online account. If it is determined that a student is awarded financial aid for a class or classes in which the student never attended or participated, the financial aid award will be adjusted in accordance with the classes in which the student did attend/participate and the student will owe any balance resulting from the adjustment.

Plagiarism and Cheating: Students are expected to do their own work on all projects, quizzes, assignments, examinations, and papers. Failure to comply with this policy will result in a grade of ZERO for the assignment and can result in an F for the course if circumstances warrant.

Plagiarism violations include, but are not limited to, the following:

1. Turning in a paper that has been purchased, borrowed, or downloaded from another student, an online term paper site, or a mail order term paper mill;
2. Cutting and pasting together information from books, articles, other papers, or online sites without providing proper documentation;
3. Using direct quotations (three or more words) from a source without showing them to be direct quotations and citing them; or
4. Missing in-text citations.

Cheating violations include, but are not limited to, the following:

1. Obtaining an examination by stealing or collusion;
2. Discovering the content of an examination before it is given;
3. Using an unauthorized source of information (notes, textbook, text messaging, internet, apps) during an examination, quiz, or homework assignment;
4. Entering an office or building to obtain unfair advantage;
5. Taking an examination for another;
6. Altering grade records;
7. Copying another's work during an examination or on a homework assignment;
8. Rewriting another student's work in Peer Editing so that the writing is no longer the original student's;
9. Taking pictures of a test, test answers, or someone else's paper.

Student Code of Conduct Policy: Any successful learning experience requires mutual respect on the part of the student and the instructor. Neither instructor nor student should be subject to others' behavior that is rude, disruptive, intimidating, aggressive, or demeaning. Student conduct that disrupts the learning process or is deemed disrespectful or threatening shall not be tolerated and may lead to disciplinary action and/or removal from class.

COVID-19

If you are experiencing any of the following symptoms, please do not attend class and either seek medical attention or get tested for COVID-19.

- Cough, shortness of breath, difficulty breathing
- Fever or chills
- Muscles or body aches
- Vomiting or diarrhea
- New loss of taste and smell

Please also notify DeEtte Edens, BSN, RN, Associate Director of Health & Wellness, at dedens@southplainscollege.edu or 806-716-2376.

Email: When you have questions, problems, or comments, you can e-mail me directly to bwang@southplainscollege.edu. Please refrain from using the BlackBoard Course Messages tool to message me. I will respond to your email in a timely manner (within 24 hours), emails received after 10:00 PM on Monday through Thursday will receive a response next morning. Emails received on Friday through Sunday will get a response usually same day email received, unless email was sent after 10:00 PM. I generally will not check my email often during the weekend, but I will reply to your email in a timely manner when I see them.

Expectations when Corresponding: Please be polite, courteous, and respectful when communicating. Do not use profanity under any circumstances. Do not write

disrespectful, insulting, mean, rude, profane, insensitive, or other hurtful messages or comments under any circumstances. Failure to abide by this policy will result in the appropriate disciplinary actions.

Online Disclaimer: This is to notify you that materials you may be accessing in chat rooms, e-mails, discussion forums or unofficial web pages are not officially sponsored by the instructor or South Plains College. The United States Constitution rights of free speech apply to all members of our community regardless of the medium used. The instructor and South Plains College disclaim all liability for data, information or opinions expressed in these forums.

Minimum Computer Requirements:

1. Personal computer
2. Web Browser: Google Chrome works best
3. A high-speed internet connection
4. Microsoft Word and Microsoft PowerPoint software (a recent version)
5. Software or Program to read PDFs
6. A good soundcard and functioning speakers
7. Knowledge of how to navigate web pages and how to deal with pop-up blockers and other devices and warnings on your browser
8. Knowledge of how to download files from the internet and find them on your computer once they are downloaded
9. Knowledge of basic operations of Microsoft Word and Microsoft PowerPoint
10. Knowledge of how to view and adjust videos

Copyright Notice: All material presented by the instructor in this online class is copyright protected. The material presented by the instructor may not be modified or altered in any way. You have permission to print out **one** copy of any material presented by the instructor in this online class (course syllabus, lecture notes, lab experiments and exam reviews). The one copy must only be used for your personal educational use during this semester. The material may not be altered or modified in any way. The material may not be distributed in any way. You have permission to download the same material to your computer hard drive or other medium in order to print out the material. Any material downloaded must only be used for your personal educational use. The downloaded material may not be altered or modified in any way. The downloaded material may not be distributed in any way.

Computer Problems or Blackboard Server Problems: If a student's internet connection goes down, or a student's computer crashes or otherwise becomes inoperable for Blackboard, it is the responsibility of the student to have their internet connection and/or computer repaired as soon as possible in order to avoid getting behind in the class. While the computer and/or internet connection is being repaired, the student should seek an alternate computer. This could be a friend's computer, a relative's computer, a computer at a library, or a computer at the computer lab on the Levelland

or Reese campuses. It will be the student's responsibility to find an alternate computer to avoid getting behind in the class. Internet problems and/or the crash or inoperability of a computer will not be an acceptable excuse for being late with any assignments or getting behind with the chapter modules. *It is the responsibility of the student to have a backup plan in place.* If the Blackboard server goes down, the appropriate time extensions on any quizzes will be determined and announced by the instructor.

Logging into the Course: You are not allowed to give your user ID and/or password to anyone. You will be dropped and given an F for your final grade if someone besides you is caught logging into this course under your user ID and/or password.

Schedule	Laboratory experiment By end of the week	Quiz Due Thursdays	Exam Due Fridays	Lecture learning plan
Week #1 01/13 ~	- Safety Rules-Chemical Hygiene Plan - Sign Chemical Hygiene Plan agreement form.			- Learn chapter 1 lecture notes
Week #2 01/20 ~	Experiment 1: Measurements	Quiz 1: Due Thursday 01/23	Chapter 1 Exam Due Friday 01/24	- Work on Exam 1 review before exam. - After exam, learn chapter 2 lecture notes
Week #3 01/27 ~	Experiment 2: Density			-Continue learning chapter 2 lecture notes
Week #4 02/03 ~	Experiment 13: Naming Compounds	Quiz 2: Due Thursday 02/06	Chapter 2 Exam Due Friday 02/07	-Work on Exam 2 review before exam. -After exam, learn chapter 3 lecture notes
Week #5 02/10 ~	Experiment 3: Elements and Compounds			- Continue learning chapter 3 lecture notes
Week #6 02/17 ~	Experiment 4: Determining the mole ratio by chemical reaction	Quiz 3: Due Thursday 02/20	Chapter 3 Exam Due Friday 02/21	-Work on Exam 3 review before exam. -After exam, learn chapter 4 lecture notes
Week #7 02/24 ~	Experiment 5: Hydrates			- Continue learning chapter 4 lecture notes
Week #8 03/03 ~	Experiment 14: Precipitation reaction	Quiz 4: Due Thursday 03/06	Chapter 4 Exam Due Friday 03/07	-Work on Exam 4 review before exam. - After exam, learn chapter 5 lecture notes
Week #9 03/10 ~	Experiment 6: Determination of molar mass by titration	Quiz 5: Due Thursday 03/13	Chapter 5 Exam Due Friday 03/14	-Work on Exam 5 review before exam. - After exam, learn chapter 6 lecture notes
Spring Break				
Week #10 03/24 ~	Experiment 7: Boyles' law			- Continue learning chapter 6 lecture notes
Week #11 03/31 ~	Experiment 8: Gay Lussacs' law	Quiz 6: Due Thursday 04/03	Chapter 6 Exam Due Friday 04/04	-Work on Exam 6 review before exam. - After exam, learn chapter 7 lecture notes
Week #12 04/07 ~	Experiment 9: Calorimetry of metals			- Continue learning chapter 7 lecture notes
Week #13 04/14 ~	Experiment 10: Endothermic and exothermic reaction	Quiz 7: Due Thursday 04/17	Chapter 7 Exam Due Friday 04/18	-Work on Exam 7 review before exam. - After exam, learn chapter 8 lecture notes
Week #14 04/21 ~	Experiment 11-B: Atomic emission spectroscopy	Quiz 8: Due Thursday 04/24	Chapter 8 Exam Due Friday 04/25	-Work on Exam 8 review before exam. - After exam, learn chapter 9 lecture notes
Week #15 04/28 ~			Chapter 9 Exam Due Friday 05/02	-Work on Exam 9 review before exam. - After exam, learn chapter 10 lecture notes
Week #16 05/05 ~			Chapter 10: Final Exam Due Wednesday 05/07	-Work on Exam 10 review before exam.
